## Professional Experience

### Persistent Systems Limited, Nagpur

September 2015 - Present

Currently working on Watson Analytics using various Watson APIs (dialog API, Retrieve and Rank, Natural Language Classifier), IBM Bluemix, Watson Explorer Engine, IBM Application Builder and Watson Content Analytics.

Develop Web-Services to display data analysis using Node.js and Express.

Have worked on IBM Tivoli Storage Manager for creating backups of virtual machines. Also have knowledge of Chef devops tool.

## Projects

### ➤ Location Tracking System using Watson Data Explorer and Location as a Service (LaaS)

A location tracking system which uses Watson Data Explorer's capability to crawl various unstructured data sources and extract information about the traffic in a particular place. Using LaaS, the system then intimates the user about the traffic condition in their area.

**Technologies:** Java, WEX, Rest, Clear DB, Google Location API.

➤ **Stock Analyzer using Social Media Sentiment**

An online portal which displays trends of stocks based on market sentiment derived from Twitter feeds, Moneycontrol forum data, etc. using Watson Alchemy API.

**Technologies:** Java, REST, MySQL, Twitter API, IBM Alchemy API, Quandl API.

➤ **Facebook Messenger Chat Bot using NodeJS**

A chat bot for investment related queries using Facebook's Messenger API integrated with Watson Conversational Service.

**Technologies:** Node JS, Facebook Messenger API, IBM Watson Conversational Service, HTML, CSS, IBM Bluemix.

➤ **Web Scraper for Fetching Alumni Information from Social Network sites**

A scraper which fetches the information of the alumni of a particular institution using Facebook Graph's API and LinkedIn API.

**Technologies:** VBA, Java, MySQL, HTML, CSS, JavaScript.

➤ **Android Based Music Player Application**

An android based music player which enables playing music simultaneously on all connected devices using a hotspot.

**Technologies:** Android, Java, MySQL, Selenium Webdriver.

## Technical Skills

<b>Languages</b>	C, Java, Node JS
<b>Database</b>	MySQL, Oracle 10g, Mongo DB
<b>Web Technologies</b>	HTML, CSS, JavaScript, Bootstrap
<b>Frameworks</b>	Angular JS, Express

## Extra-Curricular Activities

- 2<sup>nd</sup> runner up in Hackathon organized by Accelerite
